

Project Superintendent Mario Lewarne

Background & Experience:

Mario's vast healthcare projects have provided him with healthcare type construction experience where patient and staff safety is of paramount importance.

Mario started with Clark & Sullivan in 1994 as a Carpenter and worked his way up to Superintendent. Responsible for the daily supervision and coordination of Clark & Sullivan labor force and subcontractors, updates and maintains project schedules, communications with project designers and representatives. Responsible for all on-site safety, including toolbox safety meetings.

In his role as Project Superintendent, Mario Lewarne is responsible for the following construction phase activities:

- Project Supervision, including coordinating with the Owner, Subcontractors, Field Staff to solve problems as necessary, serve as the first line "Quality Control" officer and ensure job site setup in a logical manner.
- Ensuring Daily Reports, Time Cards, Extra Work Record, Quantity Reports and other documentation are completed each week
- Safety, including ensuring OSHA inspections are complete, issuing Project Emergency Plan and conduct weekly safety meeting
- Ensuring adequate labor and supervision are on site.
